# Sharaf DG RECOMMENDS

Sharaf DG is a spotlight app in Windows store!

## Windows 8 is all about you!

Its fast, stunning, surprising and fascinates a user with its intuitive user interface.

### Why we recommend?

**For the first time, Microsoft Windows is all about us.**

**Let's Start :** The start screen is all about you. The screen is filled with rows of colorful 'live' constantly changing tiles. Each tile is connected to a person, app, website, folder, playlist or whatever is important to you. Add, pin, move them the way you want. These are live tiles and get updated with latest information.

**See Something, Share Something :** Now there is no need to select, copy, paste - when you want to share something. Just swipe, tap and share.

**Touch & Mouse :** Though Windows 8 is developed with touchscreen in mind it works seamlessly with a traditional keyboard and mouse.

**Zip Around, Get it done :** Discover fast and fun ways to get around. Pinch, Stretch, Slide and Swipe in to get more of everything on your screen.

### Other cool stuff that we love in Windows 8:

- Multi-tasking is a breeze on Windows 8.
- Charms Bar is the nicest thing, hidden but at your service when you need it.
- Universal Search - just start keying in and the universal search will work wonders.
- Internet Explorer 10 gives you faster browsing and a safer online experience. Windows mail is now part of the popular email accounts into one area for better email management.
- Skydrive allows you to access data from almost anywhere.
- Connect with the world! In Windows 8, you can effortlessly upload and share photos, websites, and more instantly with the people that matter most.
